

Line-Sort®

Disposable IV line organizational aid

Rev. September 2026 · Supersedes Rev. July 2026

A single-patient-use foam organizer that separates up to four IV lines per pad, supporting a more organized, visible, and traceable tubing pathway from pump to patient.

Manufacturer information

Manufacturer	HH Medical, LLC
Product name	Line-Sort®
Product type	Disposable IV Line Organizational Aid
Website	www.linesortmedical.com
Phone	1-844-227-1838
Country of origin	China

Clinical need

Patients receiving multiple infusions often require management of numerous IV lines simultaneously. As line volume increases, line crossover, visual clutter, and workflow complexity can occur. Line-Sort supports standardized line organization, visibility, and traceability within existing clinical workflows.

Product benefits

- Supports organization and visibility of multiple IV lines.
- Helps reduce line crossover and tangling.
- Lightweight, disposable design for single-patient use.

Technical specifications

Length × width × thickness	73 × 62 × 6 mm
Weight	2 g
Material / construction	Flexible EVA foam
Color	White
Sterility	Non-sterile
Shelf life	Not established
Country of origin	China

Clinical characteristics and materials
